MEDIA RELEASE

Health Expo drives local community health and wellbeing

Never one to rest on her laurels TerryWhite Chemmart 2018 Pharmacist of the Year, Karen Brown is always looking for new ways to inspire her local community through initiatives such as the annual Samford Health Expo.

Through this initiative Karen has been able to bring together a range of health and lifestyle providers, giving the community a valuable opportunity to come together, share experiences and learn about exciting new health initiatives.

The Samford Health Expo has grown to be over 100 stands and exhibits from its humble beginnings four years ago with 15 stalls in the local school hall.

“It is a fantastic event that brings the local businesses and sports and support groups of Samford together to promote the health & wellbeing of the community”, said Ms Brown.

“Hundreds of people attended throughout the day and experienced the selection of stands and healthy food trucks along with amazing demonstrations including those from local fitness groups”.

TerryWhite Chemmart CEO, Mr Anthony White said Karen’s commitment to the Samford community was innovative and deserved to be recognised and applauded.

“Karen understands what her local community needs and she has opened the doors of TerryWhite Chemmart to the entire community to generate discussion on ways people can improve their wellbeing and lead healthy and active lifestyles,” said Mr White.

The 2018 Samford Health Expo was held on Saturday 19th May.
